

But Is It Moral? Hear Them Again: Sounds of '65

By VIVIAN BROWN

"A problem that old people can't comprehend," writes a 17-year-old girl, "is present-day morals."

If 90 per cent of young people are doing something with parental approval it must be all right, she says. "People who aren't in step are out of date."

She continues:

"In my school kids smoke, drink, dye their hair, wear false eyelashes—all with parents' permission. They stay up late on weekends. I'm the big exception. My parents have put in rules that are ancient. They are getting stricter each year, and even if I get home on time (midnight on Saturday is curfew) I'm not allowed to sit out front with a boy in his car. Isn't that outrageous? Doesn't it show that they are giving a lame excuse when they say they want to know about his driving? Somebody must show that I'll wind up an old maid unless they leave me alone."

Some parents are too strict, but many parents have good sense that doesn't exactly have youth-appeal. The fact that nine parents are wrong, doesn't mean that the tenth must be. They're just not being influenced by other opinions or giving in to "they're all doing it" routine.

It may even make you unpopular for awhile, but if you stick with your parents you may find others on the bandwagon. Let friends call you Pollyanna—who cares?

The idea to work on is earning respect so that they will give you more liberty. You must be able to give them a good reason for your behavior. If you are a good person, they will respect you.

A REMARKABLE JOB of continuity writing and the voice of John Daly, sounding as if he is having a newsman's glorious time — and of course the drama of the events themselves — are the outstanding attributes of "The World in Sound, 1965," produced by The Associated Press.

News events of the year are not in chronological order. As Daly says in his conclusion, the events we remember best are those that most affected us personally. The album starts with an event that affected Americans in 80,000 square miles — the Northeast blackout Nov. 9. Voices of people are heard, saying what they thought, what they did, where they were and asking, "Where did you get that candle?"

Of course, much of the news of the year came from the war in Vietnam. Lots of opinions are heard, including the voices of President Johnson, Associated Press columnist Hal Boyle, who covered the war during the first half of the year, and AP photographer Eddie Adams who shoots a shooting war by putting his camera up and his head down.

Following Viet Nam, the narration delivered by Daly strings the beads of the year's events — the Pope's mission of peace; Churchill's voice in his "finest hour" exhortation, and his eulogy by Adlai Stevenson; Casey Stengel's retirement remarks;

Stevenson's moving eulogies of Eleanor Roosevelt, John Kennedy and Churchill are heard. There are samples of his flashing wit. Many of his speeches are eloquent — for example, the 1956 acceptance of the Democratic presidential nomination. But the one which, in itself, would make this recording completely worthwhile is a speech he gave in 1963 before a symposium at the Center for Study of Democratic Institutions.

Stevenson explained democracy at some length and said, in part, that democracy is not a system of voting but a philosophy — that man is greater than the social uses to which he can be put; he is an end in himself.

Narrated by Alexander Scourby.

ONE ASPECT of Adlai Stevenson's utterances is explored at greater length in RCA's "The Stevenson Wit," narrated by David Brinkley.

Stevenson, like Abe Lincoln, whom he greatly admired, was from Illinois and renowned for his wit. However, Lincoln's wit was apt to be a homespun story. Stevenson's a sophisticated quip. He said of South Dakota farmers who voted Republican that they feed the hand that bites them.

This recording moves fast and is well done. It was edited by Bill Adler who compiled the books "The Stevenson Wit" and "The Kennedy Wit."

"HARK! The Years!" on Capitol reminds a listener of the kind of stew you get when you throw into the pot whatever ingredients you've got around.

This "curiosity from history" begins with two survivors of the Crimean War, speaking in their very old age — a bugler and Florence Nightingale. There are 51 bands, concluding with the voice of Franklin Roosevelt.

Some people said things which summed up their lives or were their best-remembered contributions (De Wolfe Hopper recites the end of "Casey at the Bat"). But some are far from central. Woodrow Wilson discusses the plight of the American Indian and is heard again on his deathbed.

From entertainment, we hear Lillian Russell's quavery voice, P.T. Barnum, W.C. Handy, George M. Cohan; from politics, William Jennings Bryan, the Presidents from Teddy Roosevelt through FDR. New York mayors Walker and La Guardia, Eugene V. Debs, Lenin, Gandhi, Pershing and Foch; with stops for the songs of the '90s, World War I and Louis, Fredric March narrates.

HOMES FOR AMERICANS

NEW ENGLAND FARM-TYPE HOUSE — Three separate units of building are butted together — typical of the expansion construction done in earlier days. Materials are narrow horizontal wood siding with corner boards, wood louver shutters and cedar roof shingles. Brick chimney has terra cotta chimney pots. Foyer and dining room are wood-paneled. There is wood balustrade on the stair, beamed ceiling in the living room and exposed brick on the raised hearth fireplace. Second-floor expansion rooms may be finished later. There is 1,221 square feet on the first floor and 580 square feet on the second floor. Architect is Rudolph A. Matern, 89 E. Jericho Turnpike, Mineola, N.Y. 11501.

Novel Has Old-Time Elan Strong Men Build Up Presidency

AN ACRE OF GRASS. By J.I.M. Stewart, Norton. \$4.50.

In the midst of the current fashion for novels filled with obscene shrieks from the sewer, it is a pleasure to find that someone still is composing deftly narrated stories about self-respecting, well-bred (there's an antique label) people.

So, while this novel may fall into an old-fashioned genre of fiction, it is a welcome relief from the effusions of the garbage dispensers.

The story is about a major British writer, Gabriel Purefoy, and his wife Amy. It begins at the end of Gabriel's life, when he is buried in hallowed Westminster Abbey. For a time it seems the narrative is wandering in too leisurely fashion through the postmortem reactions of Gabriel's solicitor, his literary agent and his longtime friend — a minor novelist named John Mandeville, who has been an old admirer of Amy, and serves as the novel's narrator.

Gradually there emerges a realistic picture of Gabriel, and the fact that he left behind a final manuscript which might hurt Amy.

Inevitably, John tries to come to the rescue. Suddenly the deceptively slow plot plugs into an electric current.

Stewart practices a vanishing art — the creation of a real story about civilized people, written in a civilized fashion. It may be a quaint idea to expect wit, subtlety and elan from a writer these days, but fortunately this author preserves the older gentility and sophistication of the storyteller's art.

Burns' present thesis will be best understood by those who have read his earlier book, "The Deadlock of Democracy." In that, he developed the idea that both the Republicans and the Democrats are split into two conflicting groups, the "presidential" and the "congressional" parties, creating a four-party system.

The author's classroom habit of building preponderances upon small points, at great length, may bother some readers. But at least he has the gumption to raise some practical questions about the presidential office — such as the paradoxical situation of an executive who simultaneously is leader of all the people and leader of his party.

Burns also has some suggestions about the executive office — not to reduce its power, but to give it a healthy opposition, so that it will not subside into a dull consensus.

There are many persons who think of mahogany as a dark and rather dull reddish wood.

It isn't. Genuine mahogany usually is fairly light in color — either a salmon pink or a creamy yellowish brown. But there are many shade differences, even from

play of light and shadow so characteristic of this wood. NEW YORK (AP)—"This is a night I will never forget," said Enrique Negron, 56, a Puerto Rican. "I shall always remember this night as one that shows people care."

Negron had just been presented a \$250 check by policemen and proclaimed a hero for the second time in eight months.

Last May he aided a white policeman under attack by a mob of Negroes. But his friends took a dim view of the act. They boycotted his grocery store and forced him out of business, he said.

When his plight became known, Negron was honored again with job offers and a dinner Wednesday night by the Police Reserve Association.

NEW YORK (AP)—Producer Otto Preminger can't keep his film "Anatomy of a Murder" from going under the knife of television's surgeons.

A Supreme Court justice ruled Wednesday that the right of a producer to final cutting and editing is limited to the original or theatrical production and not to television showings.

Preminger had sought a permanent injunction to keep the film intact during television showings.

But Justice Arthur G. Klein said the right to interrupt motion picture showings on television for commercials and to make "minor deletions" to fit the time requirements has been considered a "normal and essential part of the exhibition of motion pictures on television."

Fee Splitting Doctor Not a Good One

By ROBERT GOLDENSTEIN

AP Science Writer
CHICAGO (AP)—The anxious patient goes to his doctor with stomach pains, and X-rays show that his gall bladder should come out. The doctor recommends that a certain surgeon perform the operation. Can the patient be certain the choice was a good one?

Not if the doctor is involved in fee splitting, says the American College of Surgeons. The doctor could have a secret arrangement with a second-rate surgeon to refer surgery patients to him in return for a percentage of the surgeon's bill.

Dr. John Paul North, director of the college, which has 26,000 members, says fee splitting is less prevalent today than formerly but still is practiced on the sly in certain communities.

"How widespread is the practice no one knows," he said in an interview. "It started many years ago in some areas and still is practiced covertly in some places."

The college has repeatedly denounced fee splitting as "an evil practice" that deludes the patient and provides him with inferior care. Any members of the college found guilty of the practice face reprimand, suspension or termination of fellowship in the college.

As a result of general opposition from organized medicine, open fee splitting has virtually disappeared. But the covert forms are not easy to detect.

The patient doesn't become suspicious because his over-all medical bill in some cases might be no higher than expected. In some fee-splitting arrangements, the surgeon reduces his normal bill to enable the referring doctor to increase his. Some fee splitters use an alternating fee arrangement under which the referring doctor submits the only bill in one case and the surgeon submits the only bill in the next case.

The college contends that in addition to providing inferior care for patients, fee splitting works special hardship on qualified young surgeons seeking to build up a practice on the basis of skills alone.

Dr. North said patients can protect themselves from fee splitting by insisting on separate billings from the surgeon and referring doctor.

"Some insurance companies will only honor a combined bill," he said. "In that case, the surgeon should itemize what he pays his assistant and the referring doctor who took the case. We don't like that, but some insurance companies insist on it."

Practical Jokers

Never Grow Up

Dear Helen: There's a guy who lives down the hall from me (we have bachelor apartments) who thinks he's something else, and he is! He's just full of smart moves like stuffing my pipe with coffee, slipping cardboard in my swiss on rye sandwich, sneaking plastic "ice cubes" with flies inside them into my friends' drinks, and, of course putting car bombs on my motor.

I could go on for a whole column telling you the stupid stunts he pulls. Other night there was an explosion under my chair. He'd put a firecracker inside a cigarette, lit the cigarette, then left it burning in an ash tray which he kicked under the chair. As he walked out the door. Last night I opened the door to a knock and got my hand burned — he'd put an electric iron up to the outside knob.

I can't stop him, and I can't even discourage him — that kind don't even know when they're unpopular. Besides, he'd give you the shirt off his back. When my car knocked out, he took me to work, lent me his any time I needed it. Outside of moving, what do you suggest? — Joe

P.S. I smoked the pipe and ate the "chese" sandwich, but ignoring doesn't help. All I got was sick.

Dear Joe: Practical jokers are always the last to know their friends consider them rejects from the freshman floor of a college dormitory.

Get tough, like with temper and muscles. I think he'll calm down when he sees you "can't take a joke." — H.

Nervousness Can Interfere

With Digestion

You have often noticed complete loss of appetite when excited, tired worried or under some emotional strain. Nature does not want you to eat at such times as the nervous disturbance has upset the delicate nerve mechanism which controls the chemistry and process of digestion.

Interference with the transmission of nerve impulses by a misplaced spinal bone will likewise affect digestion and in turn be responsible for many digestive disturbances such as gas pains, bloating, heartburn, nausea, vomiting, and ulcers.

The controlling force carried by nerves from the brain to all parts of the body is generally spoken of as nature, and may be cut off by misplaced vertebrae. The Chiropractor's examination is largely confined to the spine because he wants to find what is preventing nature from curing. The Chiropractor locates and removes the cause of nerve interference, thereby allowing nature to correct many types of digestive disorders.

PLYMOUTH, England (AP)—The captain and all 33 crew members of the 12,000-ton German freighter Kremser were rescued by tug and helicopter today in the gale-swept English Channel.

The captain and six others were taken off by helicopter as the ship wallowed with a 45-degree list off the coast of south-

west England. The rest of the crew was transferred by dinghies to the French tug Atlantic. The dinghies were dropped by Royal Air Force rescue planes. The rescued men were reported unhurt. The helicopter crews said the freighter was sinking.

LONDON (AP)—Britain is threatened with a nationwide rail strike on Feb. 14.

Leaders of the Railwaymen's Union voted Wednesday night to call the strike after a government board said demands for more pay and shorter hours were unjustified. The union's 300,000 members are expected to approve the strike.

The railway men got a 3½ per cent pay increase last Oc-

tober, and are to get another 3½ per cent this October, with their work week reduced from 42 hours to 40. They are demanding the raise and shorter work week immediately as well as a third week of paid annual vacation.

Pay rates now range from \$36.82 a week for porters to \$47.46 for top-grade drivers and signalmen.

Important Information About Medicare

and its relationship to your present health care plan

IF YOU ARE AGE 65 OR OVER, YOU SHOULD BE AWARE OF THESE IMPORTANT FACTS

- Medicare will not go into effect until July 1, 1966. Therefore, you should hold on to your Blue Cross-Blue Shield, or any other health protection plan you have until that date.
- The Nursing Home benefits section of the Medicare Program will not go into effect until January 1, 1967.
- REMEMBER: There are two parts to the Medicare Program. Part A . . . for hospital services . . . will be automatically provided to people over age 65 receiving social security or railroad retirement benefits under the new Social Security law. Part B . . . for medical-surgical services . . . will be voluntary and requires action on your part. Contact your local Social Security Office to sign up. The cost for Part B of the program will be \$3.00 monthly per person.
- Persons age 65 and over not receiving social security payments are eligible for Medicare Benefits, but they should apply at their local Social Security Office for information and instructions as to how they should "sign up".
- Description of Medicare benefits are included in a booklet prepared by the Social Security Administration. If you have not received this booklet, contact your local Social Security Office.
- Presently, Blue Cross-Blue Shield is making a careful study of Medicare benefits as they will relate to the level of coverage its subscribers now have. It is very likely Blue Cross-Blue Shield will offer its subscribers an especially designed program to cover those important services not provided under the Medicare Plan.

If you have any doubt as to where you stand under Medicare, contact your nearest Social Security Office.

3 Teams Are Big Surprises in Cage Ranks

By TED MEIER
Associated Press Sports Writer

Michigan State, Nebraska and Tulsa are the surprise teams in college basketball at the half-way mark of the season.

Unbeaten Kentucky, with a 12-game winning streak that has elevated the Wildcats into the No. 2 spot behind top-ranked Duke in The Associated Press poll, has been a surprise, too, but at least the Wildcats received a few votes in the pre-season AP poll.

Michigan State, Nebraska and Tulsa didn't get a single vote in the pre-season poll, yet today the Spartans, Cornhuskers and Hurricanes are in first place in three of the toughest conferences.

The Spartans share the top rung in the Big Ten with Michigan, but the Huskers are undisputed leaders in the Big Eight and the Hurricanes are all alone at the top of the Missouri Valley Conference.

Michigan State, under its new coach, John Benington, has compiled the biggest form reversal.

The Spartans finished last in the Big Ten a year ago with a dismal 1-13 mark and 5-18 overall. Today they are 3-0 in league play and 10-3 overall, paced by Stan Washington and John Bailey, a sophomore. If State's two victories over service teams in the holiday Rainbow Classic at Honolulu are included, the Spartans' record is 12-3, but under NCAA rules these games are considered exhibitions.

Nebraska hasn't had a winning season in 15 years, but this year the Huskers are 4-1 in the Big Eight and 12-2 overall. The play of two sophomores, Tom Baack and Stuart Lantz, is making coach Joe Cipriano happy.

Another soph, Eldridge Webb, has led Tulsa into title contention after 10 years of struggling in the valley's second division. Coach Joe Swank's boys are 3-0 in league play and 13-4 overall.

Tulsa doesn't play again until Jan. 29, but on Saturday Michigan State is at Iowa and Nebraska is host to Oklahoma.

Only two major games were played Thursday night as mid-year exams called a virtual halt to competition. Virginia Tech boosted its record to 12-2 by defeating East Carolina 83-64 and Rowling Green edged Northern Illinois 74-72. Both were home-court victories.

ST. LOUIS, Mo. (AP) — Three Washington University scientists will begin soon a geophysical study of southeast Missouri to map the crustal fault zone along which numerous earthquakes have occurred.

The southeast Missouri area has been second only to the West Coast in frequency and severity of earth tremors in the United States. The nature of the fault zone remains a mystery.

Palmer, Lema and Casper Making Bids

By JACK STEVENSON
Associated Press Sports Writer

PEBBLE BEACH, Calif. (AP) — Arnold Palmer, Tony Lema and Billy Casper made their bid for the second-round lead in the \$104,500 Bing Crosby Golf Tournament today playing the course which produced the low scores for the first 18 holes.

All three were in position to move in front as they toured the Monterey Peninsula Country Club course where Al Geiberger shot a 68 on Thursday to grab the lead.

Four others had 69s but moved today to rugged Pebble Beach.

Palmer and Lema fashioned two-under-par 70s over the "Cypress Point" course, generally figured a couple of strokes tougher than Monterey Peninsula, and Casper had a 71. Palmer and Casper already are winners this year — Arnie at Los Angeles and Casper in his home town of San Diego.

In runner-up spots going into the second round were Californians Ken Toms of San Jose, Paul Bonedson of Palm Springs and Lee Raymond of Redwood City plus Ernie Vossler of Oklahoma City.

Geiberger isn't awed by Pebble Beach. In 1964, when he finished fourth in the Crosby, he shot a 73 on a windy, final day after opening the tournament with an 80. He followed with a 68 and 67.

Walker Cup amateur Dale Morey of High Point, N.C., playing with a handicap of five strokes, helped his pro partner Gay Brewer by 14 as they carded a best-ball 60 to lead the pro-amateur division. Brewer shot a 74, but on the five holes where he had handicap strokes, Morey recorded a natural birdie and four pars which went down on the score card as an eagle and four birds because of the handicap strokes.

Among five teams tied for second at 62 were Al Bessell and Los Angeles Dodger pitcher Don Drysdale. Left-hander Sandy Koufax of the world baseball champions helped his partner, Ken Still, with eight strokes for a 63.

Brilliant sunshine greeted the Crosby and brought out a gallery of 25,000, largest ever for an opening day.

Jack Nicklaus, despite going over par on two of the final three holes, hit a 73 at Cypress Point in his first competitive outing of this year.

Bill Ogden had mixed emotions. He sank a hole-in-one on the 155-yard third hole at Monterey and seemed headed for a great score until the final three holes. On those the veteran pro from Tucson, Ariz., lost four strokes to par and finished at 72.

County Must Up on Assessments

LITTLE ROCK (AP) — Director Jack Cato of the state Assessment Coordination Division told Greene County officials Thursday that they will have to do most of the work of increasing the county's property assessment ratio themselves.

Cato said his office could assign two men to help part-time.

Greene County must raise its property assessment ratio from the present level of 17 per cent to 18 per cent or lose \$26,604 in state school aid.

Williams New Member of Fame Hall

By DAVE O'HARA
Associated Press Sports Writer

BOSTON (AP) — Ted Williams, the 103rd member of Baseball's Hall of Fame, claims that the game requires more practice and concentration than any other sport.

Williams, a noted fisherman and a part-time golfer in recent years, emphasized the rigors on the road to baseball stardom Thursday after his landslide election to the Hall of Fame at Cooperstown, N.Y.

"Baseball takes more hours of practice and concentration than any other sport," the former Boston Red Sox slugger said. "No other sport requires as much practice. There are no shortcuts in baseball."

Williams believes his natural ability "has been overrated and overstressed."

"Baseball is a lot more than natural ability," he said. "I had baseball sense, but you need guidance to know what to do and how to develop your ability. And you've got to work. Stan Musial understood the meaning of practice and he developed himself into a great hitter."

Williams, who retired in 1960 with a .344 lifetime average and 521 homers in 19 seasons with the Red Sox, polled a record 282 votes, or 93.8 per cent of the total, in balloting by 10-year members of the Baseball Writers Association of America.

Williams was ignored on only 20 ballots despite his feud with many sports writers. It was a runaway in his first year of eligibility for the Hall of Fame.

Red Ruffing, who won 273 games in 22 years with the Red Sox, the New York Yankees and the Chicago White Sox, suffered a second straight disappointment. Runner-up to Luke Appling in a runoff election in 1964, Ruffing received 208 votes, 18 shy of the 75 per cent required for election.

Roy Campanella was third with 197 votes, followed by Joe Medwick 187, Lou Boudreau 115, Al Lopez 109 and Enos Slaughter 100.

Williams said he was sorry that many others, especially Ruffing, had failed to win election.

"I wish some of you writers could have hit against Ruffing," he said.

Williams, in good humor but as outspoken at the age of 47 as he was in his younger days, also pleaded that rules be left alone to give hitters a break.

"Anytime you take away anything from the hitters you are taking away from the game," he said.

Williams, who will be inducted into the Hall of Fame July 25, is looking forward to his position as vice president of the Red Sox. His appointment was announced Thursday.

Bosox Will Be First in One Respect

BOSTON (AP) — The Boston Red Sox, who haven't finished first in the American League in 20 years, will finish first in at least one respect in the coming season.

They will finish the season first, according to the American League schedule released Thursday night.

Barring an unexpected World Series appearance, the Red Sox will conclude their 1966 efforts with a two-night doubleheader at Chicago Sept. 27, five days before the final day of the season.

One other team, the Washington Senators, will finish play before Oct. 2. The Senators close Sept. 29 against New York.

In Oct. 2 closing games, it will be Cleveland at California, New York at Chicago, Kansas City at Detroit and Minnesota at Baltimore.

The season will start April 11 with Cleveland meeting Washington in the traditional opener at Washington. The other teams get under way April 12 with Kansas City at Minnesota, California at Chicago, Baltimore at Boston and Detroit at New York.

2 Settled But 5 Pro Coaching Jobs Still Open

By JACK HAND
Associated Press Sports Writer

NEW YORK (AP) — Bill Austin is the new coach at Pittsburgh and George Allen finally is officially in at Los Angeles, but five pro football jobs still are open.

Atlanta, Washington and St. Louis are the three vacancies in the National Football League, and Houston and Miami have openings in the American League.

When Atlanta originally said it would make no announcement until the end of the season, it was presumed that this meant a coach would be chosen before the first of January. However, there has been no word, although 45,000 season tickets have been sold.

One of the hot rumors through the year had George Wilson, former Detroit head coach and a Washington assistant last season, headed for the Falcons.

Washington has yet to pick Bill McPeak's successor. Paul Brown's name has been mentioned, but the fact that he is reportedly trying to line up a group to build a stadium and grab the 16th franchise for Cincinnati may rule him out. Another name bandied around is Bob DeVaney of Nebraska.

St. Louis is looking for a new man to take over the job vacated by Wally Lemm. Harland Svare, fired at Los Angeles in a surprising move, is reported high on the list of possibilities.

The hiring of Austin at Pittsburgh follows the recent trend to take assistant coaches and move them into the head spot. Austin had been rumored to be in line for every vacant head coaching job in the league for several years while he was Vince Lombardi's assistant at Green Bay.

Austin left the Packers suddenly last year and shifted to Los Angeles as an assistant under Svare while Ray Wietecha moved from the Rams to the Packers staff.

The decision to fire Bones Taylor at Houston after he claimed he had a verbal agreement to continue for three more years stirred up quite a flurry. Lemm reportedly is in line to follow Taylor. Taylor is talking of court action and a protest to Commissioner Joe Foss.

Austin, 37, was given a three-year contract. Salary terms were not revealed.

"It's a big challenge, but I'm happy to be with such an organization as the Steelers," said Austin at his home in Van Nuys, Calif.

Austin replaces Mike Nixon, who was fired by the Steelers Dec. 28 after the club finished one of its most dismal seasons, losing 12 of 14 games. Nixon took over the club following the abrupt resignation of Buddy Parker Sept. 6.

The Steelers have never won a division title in 33 years.

Austin played guard for the New York Giants in 1949 and 1950, and after two years in the service, returned to the club from 1953 through 1957.

He coached at Wichita University in 1958 before moving to Green Bay.

Texarkana Man Running for Congress

By JOHN R. STARR
Associated Press Writer

LITTLE ROCK (AP) — Richard S. Arnold of Texarkana, pledging a campaign of "talking sense to the people," formally announced Thursday as a candidate for Congress in the 4th District.

Arnold, a 29-year-old attorney, became the second full-fledged candidate in the race to succeed Rep. Oren Harris, D-Ark., who will resign Feb. 2 to take a federal judgeship. State Auditor Jimmie (Red) Jones announced last week.

Arnold, who has been canvassing the district since last July when it was first reported that Harris would quit, said he would start intensive campaigning immediately.

His first engagement was a speech to a civic club at Pine Bluff today.

Arnold said that he did not consider his age a handicap. "I'm old enough to have gained sound judgment and young enough to gain power for South Arkansas through (long) congressional service," he said.

Arnold said he hoped the courts move quickly to clear up confusion over whether the race will be run in the 28-county 4th District from which Harris was elected or the 20-county district created by a 1965 redistricting act.

The Democratic State Committee will meet next Tuesday to set a date for a special primary to pick a nominee to

Clay Declares He Carried Patterson

NEW YORK (AP) — Cassius Clay admits now that he carried Floyd Patterson in their title fight last Nov. 22 at Las Vegas, Nev.

Previously, the heavyweight champion had denied he permitted Patterson to continue in their one-sided, cat-and-mouse affair which the referee finally halted in the 12th round.

Clay, also known as Muhammad Ali, made the admission in answering a question by sport-caster Howard Cosell while they were watching the fight film and recording a tape commentary. The film and commentary will be aired by the American Broadcasting Co. on the Wide World of Sports television program Saturday, Jan. 29.

"I want to know why you weren't more aggressive when you had the boy bombed out?" asked Cosell while they were watching the seventh round.

"I wouldn't want to hurt nobody just for the pleasure of people in the audience," replied Clay.

"Are you telling me in a kind of way that you carried the boy at this point?" asked Cosell.

"Well, yes," said Clay. "I boxed him and just whipped him. You would be one of the first to jump on me if he was hurt seriously. I'm wrong if I do, wrong if I don't. I beat him nice — and clean."

"Every fighter should take it easy on a man if he is seriously hurt. I'd rather hear you talk about me carrying a man than killing a man. Like I said, I'm wrong either way."

Before the fight Clay said he intended to give "the Rabbit," as he called Patterson, a sound beating.

Other Democratic candidates who have expressed an interest in the race include Atty. Gen. Bruce Bennett, state Rep. David Pryor of Camden, truck stop operator Dean Murphy of Hope and Charles F. Honey of Prescott. Murphy ran against Harris in 1964.

The only Republican who has expressed interest is Lynn Lowe, a farmer-businessman of Texarkana.

Arkansas Hall of Fame Takes in 4

By ED SHEARER
Associated Press Writer

LITTLE ROCK (AP) — The Arkansas Hall of Fame membership grew to 38 Thursday night with the induction of Johnny Sain, Ken Kavanaugh, the late Francis Schmidt and Quinnie Hamm Toler.

Joe Garagiola, a former major league baseball catcher who now broadcasts New York Yankee games, kept the 700 persons laughing at the eighth annual dinner with his quips about Arkansas political and sports figures.

Sain was a 20-game winner four times during his career with the Boston Braves. He later was a relief pitcher and then pitching coach for the New York Yankees before assuming the duties as pitching coach of the Minnesota Twins, defending American League champions.

Among Sain's most notable pitching feats was a 1-0 victory over Bob Feller in the first game of the 1948 World Series. Kavanaugh, now the offensive end coach for the New York Giants, was an All-Pro end for the Chicago Bears and ranks as one of the finest ends Louisiana State University produced. He was an all-around star high school athlete at Little Rock.

Schmidt, who died in 1944, is credited with laying the ground work for a successful athletic program at Arkansas. His basketball teams won four South-west Conference championships and compiled an 83-18 record. His Porker football teams had a 42-17 record. Schmidt also coached at Tulsa, Texas Christian and Ohio State.

Mrs. Toler was the leading scorer for the Sparkman High School Sparklers, a girls' basketball team that gained national recognition in AAU tournaments between 1927 and 1930. Mrs. Toler scored more than 100 points three times in her career.

Warren Spahn, the great southpaw of the Milwaukee Braves, introduced Sain and said, "He was a great pitcher. He's an even greater pitching coach."

Southeastern Conference Commissioner Bernie Moore presented Kavanaugh, Hazel Walker, the only other female in the hall, introduced Mrs. Toler and Garagiola presented Schmidt. Ivan Grové, a former player and assistant coach for Schmidt, accepted Schmidt's plaque.

Garagiola had quips on Gov. Orval E. Faubus, Arkansas Coach Frank Broyles and Spahn.

"I looked at Broyles and I looked at me and then said if it wasn't for Sain and Faubus, there wouldn't be a winner in the house," Broyles' Razorback football team had a 22-game winning streak snapped in the

Cotton Bowl game when Louisiana State won 14-7.

"You couldn't be like Barney and go for a nothing-nothing tie," he told Broyles referring to John Barnhill's Arkansas team that tied LSU 0-0 in the 1947 Cotton Bowl.

Garagiola also mentioned the house Faubus is building at Huntsville. Republicans have said the house is 300 feet long and will cost more than \$200,000.

"That house is 300 feet long, but its only two feet wide," Garagiola said. "The governor is going to grow spaghetti in it. I could hit a ball that far (300 feet) with the wind blowing."

He said Spahn could be the first baseball player to draw three checks at one time—paycheck, pension and social security.

Garagiola said Spahn embarrassed him once when the Pittsburgh Pirates had a runner at third with nobody out. He struck out the next two players with five pitches and four pitches, respectively Garagiola said.

"Then, he got me on three straight pitches."

Spahn, 44, said mommets later that it wasn't that he was such a great pitcher, it was just that Garagiola was a terrible hitter.

Garagiola noted that three former Razorback assistants under Broyles were now head coaches at major colleges—Jim Mackenzie at Oklahoma, Doug Dickey at Tennessee and Hayden Fry at Southern Methodist.

"Broyles is no head coach," Garagiola said. "He really runs a head coach school for other colleges."

9 Cotton Belt Cars Derailed

WYNNE, Ark. (AP) — Nine cars of a Cotton Belt freight derailed Thursday near Fair Oaks, 12 miles west of Wynne. One member of a six-man crew was injured slightly.

Cross County Sheriff Joe Wood said the injured man was treated at a Jonesboro hospital.

Wood said some of the derailed cars carried fuel oil, butane and other volatile chemicals, and Arkansas 39 was barricaded near the derailment site until bulldozers shoved wreckage away from the highway.

Calypso Music

Calypso music was developed in the island of Trinidad. Calypso songs, accompanied by the guitar, are sung by the Negroes in a French patois interspersed with Spanish and Hindu idioms and words, or in English with a British accent.

Isolated

Owing to a double bend in the Mississippi river, there is an area of about 10 square miles in the extreme southwest corner of Kentucky that cannot be reached from the rest of the state except by passing through a part of Missouri or Tennessee.

Cambodia and Red China: Ganging Up on Thailand?

By LEON DENNEN
Newspaper Enterprise Assn.

UNITED NATIONS, N.Y.—(NEA)—Prince Norodom Sihanouk, Cambodia's chief of state, is an unpredictable man who loves the international spotlight.

But there is nothing unpredictable or ambiguous about the prince's allegiance to Red China. A French diplomat who knows Sihanouk intimately considers him a "somewhat more sophisticated oriental Fidel Castro."

The prince is "obviously convinced that China's version of militant communism is the wave of the future in Asia," the diplomat revealed. "He hopes to carve out a place for himself in Mao Tse-tung's future Communist empire."

No wonder the anti-Chinese Russians and their East European satellites gave Prince Sihanouk the cold shoulder when he recently toured Europe.

It is therefore more than a coincidence that Sihanouk, who often serves as Peking's bellwether in Southeast Asia, charged that neighboring Thailand invaded Cambodia's territory just when Peking stepped up subversive activities in Thailand.

Thanat Khoman, the Thai Foreign Minister, ridiculed the charges as "baseless." Neither Thailand nor American troops ever invaded or intend to invade Cambodia, he said. A similar denial was made by the U.S. State Department.

Yet Prince Sihanouk persists in feeding the western press reports that the United States and Thailand plan aggressive action against Cambodia.

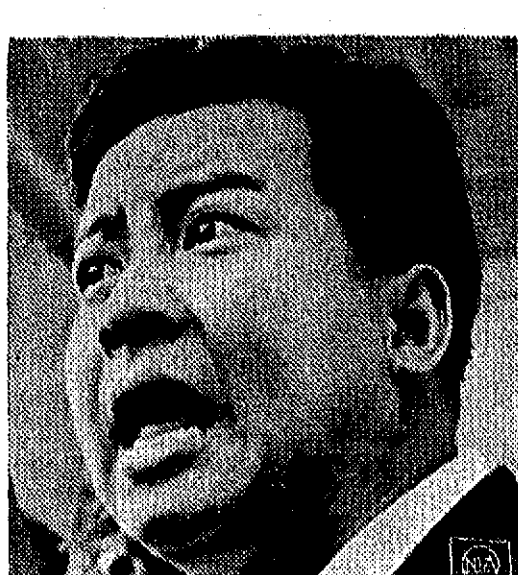

What does he hope to achieve with his charges? It is old Marxist-Leninist strategy to blame a potential victim for the crime the Communists themselves intend to commit. Or as Mao Tse-tung would say, "the wisest prophets make sure of events first."

There is no longer much doubt that Thailand, the little kingdom of golden Buddhist temples, will soon become Peking's "second front" in Southeast Asia.

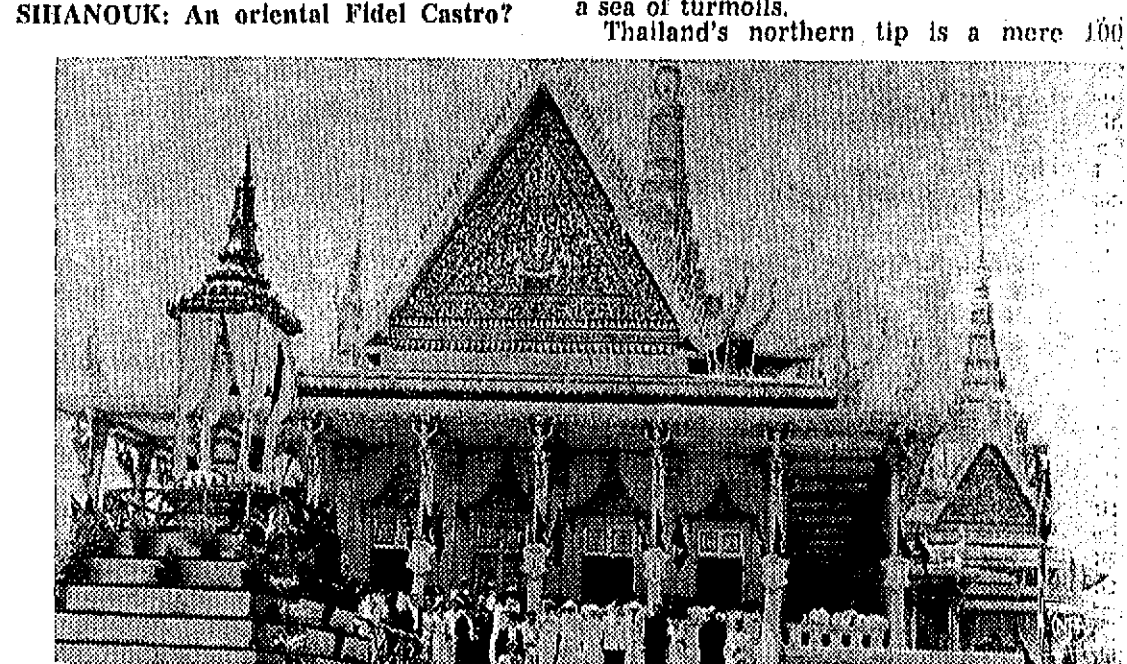

Mao Tse-tung desperately needs a face-saving "little war" to divert attention from his fiasco in Viet Nam.

What better target is there than little Thailand, with its wealth of rice, tin, rubber and teak? It is the most loyal ally the United States has in Southeast Asia. It has been for many years an island of peace surrounded by a sea of turmoil.

Thailand's northern tip is a mere 100

SIHANOUK: An oriental Fidel Castro?

Cambodia and Thailand share borders and similar ornate architecture. But Cambodia is pals with Red China and Thailand aligns itself with the United States. Something's got to give.

miles from Red China's mainland. It is only separated by short stretches of sea from South Viet Nam and Indonesia. Parts of its long border with Laos are under the control of the Communist Pathet Lao guerrillas.

Yet until now the Communists—pro-Russian or pro-Chinese—have had little success in Thailand. It was the only nation in all

But Prince Norodom Sihanouk's charges, persistent though baseless, are a clear danger signal that China is planning to attack Thailand.

"We shall have a guerrilla war going on in Thailand before the year is out," said Chao Yi, Red China's foreign minister. He obviously means to keep his word.

Already a clandestine radio station which calls itself the "Voice of Free Thailand" is broadcasting daily anti-American and pro-Chinese propaganda. It has even assured an audience for itself by distributing cheap transistor radios in many villages of Thailand, particularly in the northeast.

And how long will it be before assorted professors and leftist intellectuals start clamoring for justice for the "Thailand Independence Movement" which, like the Viet Cong, is merely a creature of Red China?

Southeast Asia on whose territory there were no armed Communists waging guerrilla war. Except for the bloodless coup in 1958 by the late Marshal Sarit Thanarat, Thailand's politics have lacked high drama. The Thais like it that way.

THE BORN LOSER

By ART SANSON

The first career soldier to become president of the United States was Zachary Taylor, 12th president. He spent 40 years in the Army, of which 25 were devoted to frontier duty against the Indians, and he served with distinction in the Mexican War in 1846 and 1847. Washington, Jackson and Harrison all had distinguished military careers, but this was not their chief profession.

Where to Go for a Good Chef WASHINGTON (AP) — When the people in the White House want to borrow a chef, they know where to go—across the street. Mrs. Lyndon B. Johnson wanted someone special to cook a state dinner Jan. 26 in honor of Vice President Hubert H. Humphrey and Chief Justice Earl Warren of the Supreme Court. So she summoned chef William Dallas, who for five years has cooked culinary delights for presidential guests at Blair House, the chief executive's residence for special visitors. The White House lost its regular chef last year following a cookery dispute and hasn't named a successor yet.

Today In Washington

By THE ASSOCIATED PRESS WASHINGTON (AP) — Officials say W. Tapley Bennett Jr. will be reassigned soon from his current job as U.S. ambassador to the Dominican Republic. Bennett came under fire last year from some critics of the administration on handling of the Dominican revolution. But sources said the Bennett job switch won't be a result of that criticism. They said U.S. diplomats often make enemies during times of crises, thus diminishing their usefulness in such nations. The obvious action, said the sources, is to give the diplomat a new post. WASHINGTON (AP)—A business research group says budget sessions of House Appropriation subcommittees should be opened to the news media and public.

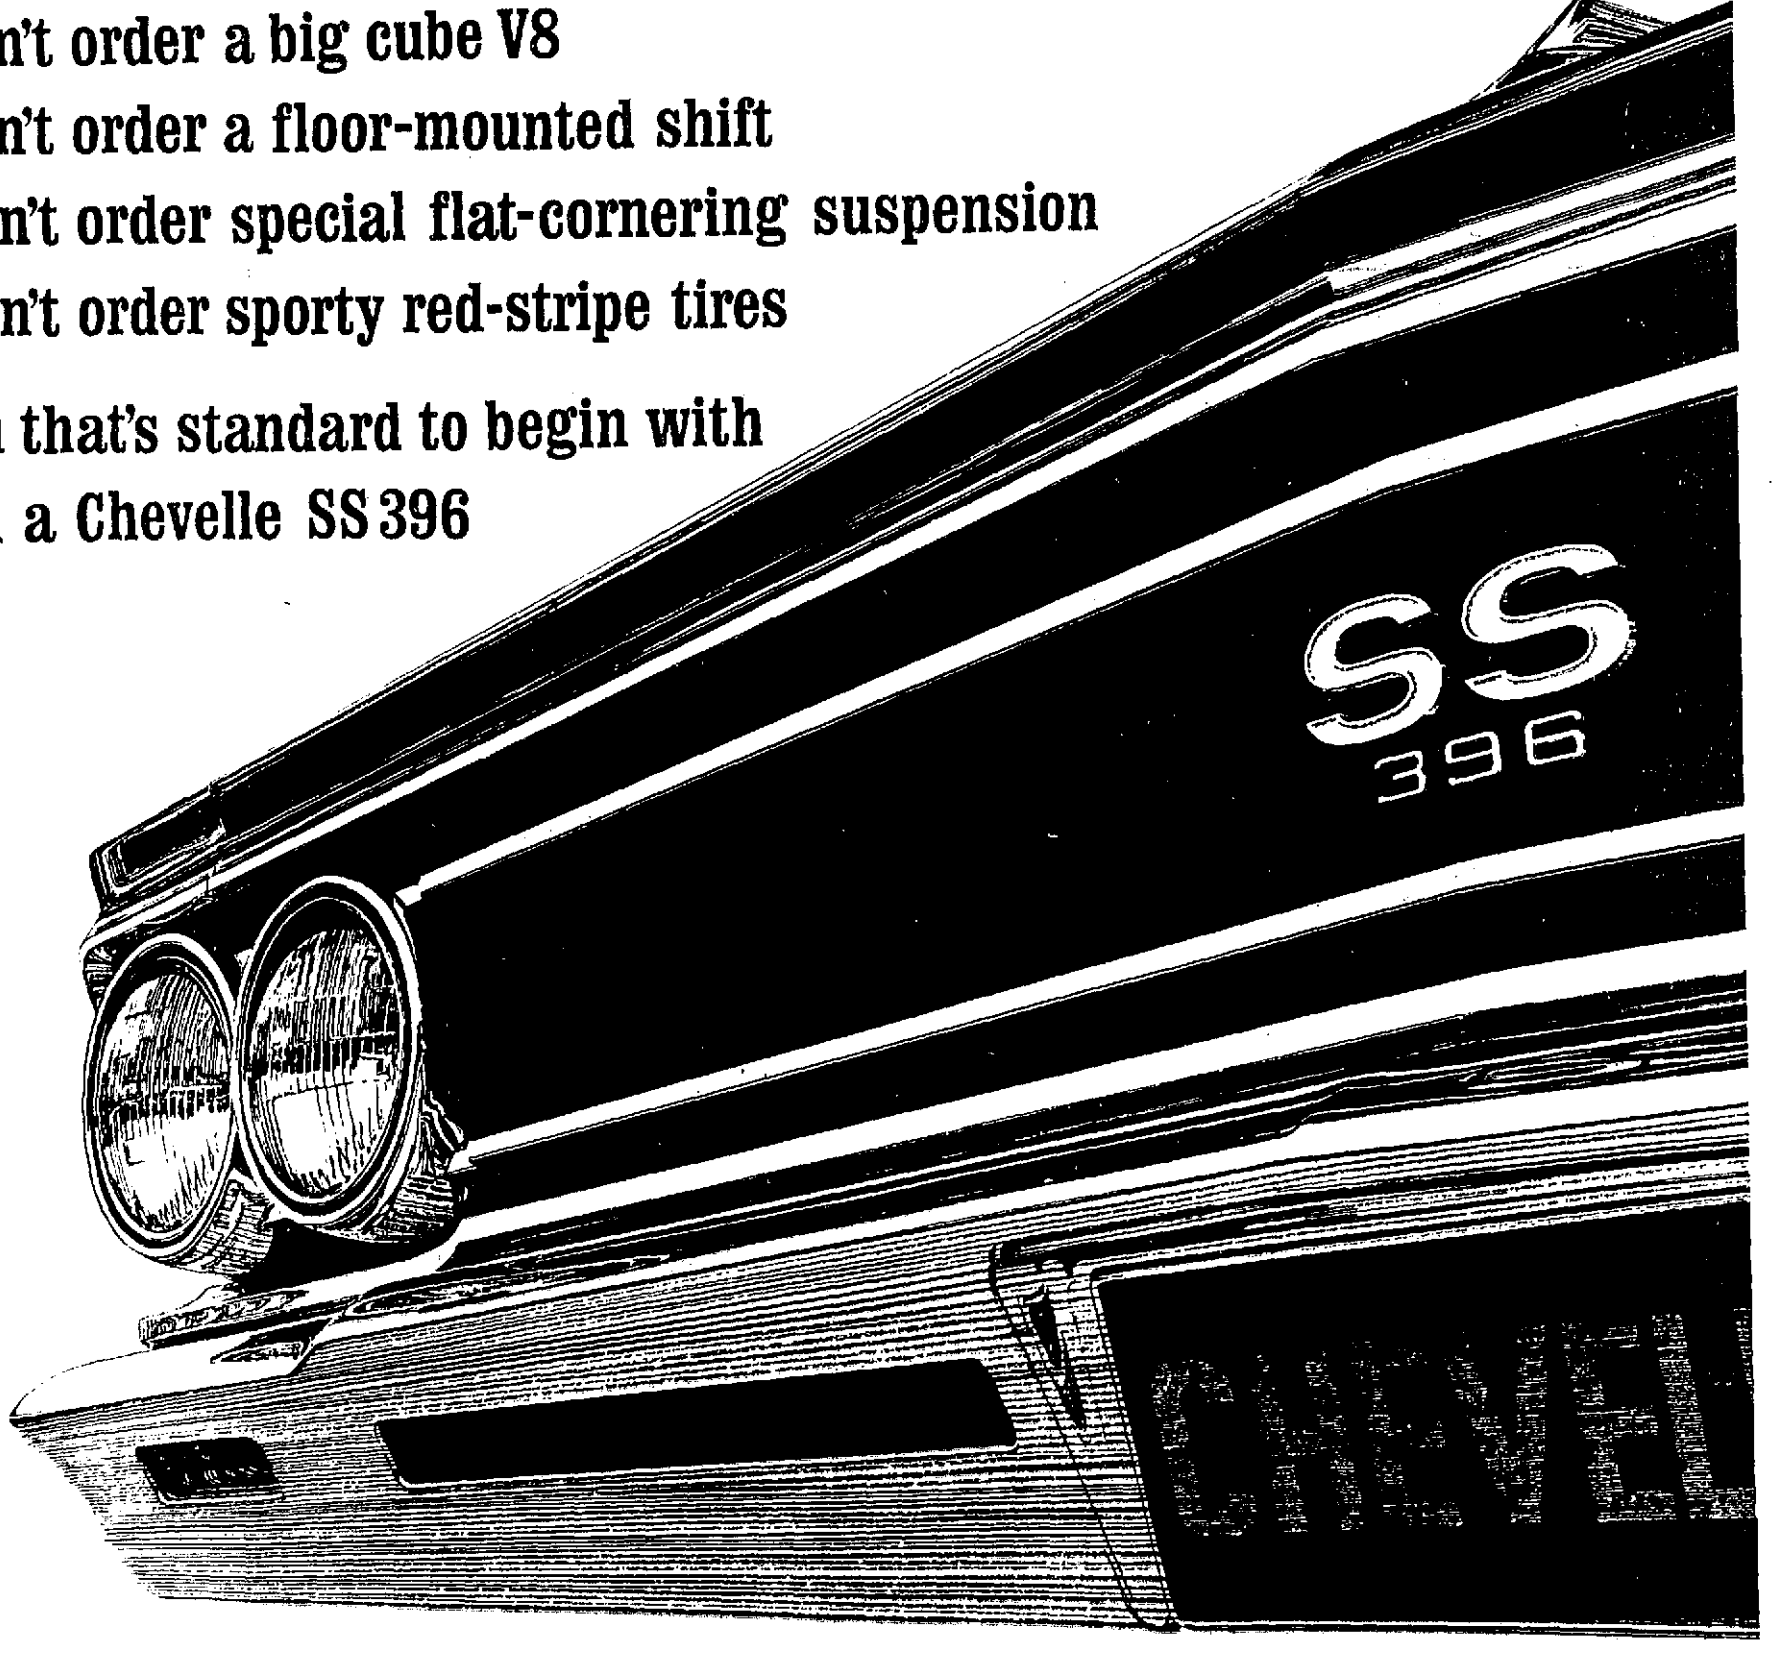

Such meetings generally are held in secret. The Committee for Economic Development said Thursday in a report that the only closed meetings should be for discussions involving national security or for detail bill-drafting. Arkansan Wins Poetry Prize

NEW YORK (AP) — An Arkansan has won a \$3,500 prize from the Poetry Society of America for a projected series of sonnets which will trace Dantean characters of the Divine Comedy to their American counterparts in the Ozarks. Edsel Ford of Fort Smith was presented the top prize, the Alice Fay di Casatgnola Award, Thursday night. It was his third such award from the society in four years. Ford has titled his work "A Landscape for Dante."

Long, Or Lost, Weekends?
We have been reminded that 1966 is the year of the long holiday weekend. Frankly, the new calendar hasn't been surveyed beyond the first month and a daily reminder that this is 1966, not 1965. But a check shows that major holidays will fall on weekends this year. This will be of consequence for plants and businesses which must consider holidays in the schedule of operations.

The year started out with New Year's day falling on Saturday. The first holiday of the year, not generally observed in this part of the country but one that is elsewhere, is Lincoln's birthday, Feb. 12. It also falls on Saturday. Both Memorial Day and July 4th come on Monday which insures a long holiday weekend for many workers. Labor Day is a traditional Monday holiday so that will wind up the season with another long weekend.

Veterans Day, again a holiday that is not observed uniformly throughout the country, falls on Friday. And the year winds up with Christmas on Sunday. So it will be a year of long holiday weekends for many throughout the country. The prospect of long weekends should have brought sobering thoughts when the highway toll for the Christmas and New Year periods are considered. National Safety Council statistics put the toll for these two weekends at 1,284. With such a toll, you wonder if these were long, or lost, weekends. — Tuscaloosa (Ala.) News

When Southerner Says "You-All"
Its author has not been identified but the following bit of classic verse has been going the rounds for some time now, as an apt explanation of our Southern expression, "You-All":

All you folks from other parts, both city folks and rural, come listen while we tell you this: the word "You-All" is plural.

When we say, "You-all must come back or we-all shall be lonely," we mean at least a couple of folks — not just one person only.

If we should say to Billy Smith, for instance: "You-all's lazy," or "Will you-all get out of here," he'd think that we were crazy.

Now if you'd spend more time down South and with us often mingle, you'd find that in our dialect, "You-All" is never single.

We don't mean to criticize or act as if we knew all, but when we speak of one alone, we-all say "YOU" like you-all. — Jackson (Miss.) Clarion-Ledger

Attorneys Get Mad in Murder Trial

By BEN FUNK
MIAMI, Fla. (AP) — Temper of opposing attorneys were growing short as the Mossler murder trial moved into its fifth day with no indication when the two sides might agree on a jury.

Fifty-nine prospective jurors had been examined a tenth Thursday's session ended. Richard Gerstein, state attorney, and Percy Foreman, defense attorney, were warned by Circuit Judge George Schultz to stop sniping at each other.

During the day, a young draftee attempted to get to Candace Mossler, accused of killing her multimillionaire husband, Jacques.

Thomas King, 21, was grabbed by detectives when he appeared at the courtroom door in shirt-sleeves, identified himself as an attorney and said he urgently needed to talk to Mrs. Mossler.

King was handcuffed and questioned by officers in a room outside the court. He said that he didn't know why he tried to get into the courtroom. And that he didn't know the blonde defendant.

Winter's Hefty One-Two Slap Pounds U. S.

By THE ASSOCIATED PRESS
Winter's hefty one-two punch, snow and cold, again pounded wide areas in the north central region, the Rockies and southern Plains today.

The snow and subzero cold hit sections in at least 10 states. North Dakota and Montana had the lowest temperatures. But snow and below-zero readings also were reported in parts of Colorado, Wyoming, Nebraska, South Dakota, Minnesota, Iowa, Wisconsin and Kansas.

The mercury dropped to 30 below zero early today at Dickinson, N.D. Temperatures were below zero Thursday in most of the Dakotas, including high readings of -11 at Devils Lake, N.D., and -8 at Lemmon, S.D.

Snow fell throughout most of the cold belt and heavy snow covered many areas. Snow extended into the plains of New Mexico and Texas and the Weather Bureau said four to six inches appeared likely from eastern New Mexico to western Oklahoma and northwestern Texas.

Stiff northerly winds fanned the cold air across the north central region southward and there was drifting of snow in some areas.

In Wisconsin, with heavy snow across many sections, temperatures were below zero for the eighth straight night in some cities as the fresh surge of Arctic air moved into the northwestern part of the state.

Snow measured six inches at Goodland, in northwestern Kansas, and was one below zero. Four inches of snow covered Dodge City, in the southwest part of the state.

Snow amounts in Oklahoma ranged from 3 to 6 inches, with heavy amounts indicated today and tonight. Agriculture experts described the moisture as a "million-dollar snow" to many areas because of the lack of rain and snow in recent months.

In other parts of the nation, light rain or drizzle dampened areas along the Gulf Coast and along the North Pacific Coast. More light snow fell in section of the Great Lakes to New England.

Clear, cool weather prevailed in most of the Far West and it was fairly mild for the season in southern Florida. The early morning high mark was 74 at Key West, Fla.

Radiothon for Dimes Saturday

KXAR Radio Station will present an Annual Radiothon for the March of Dimes, tomorrow (Saturday) beginning at 10 a. and running to 6 p.m. Program will originate in the City Hall courtroom. Seats will be available for spectators. Everyone is invited to come by.

Two lucky young persons will be given tickets and expense paid trips to see "The Sound of Music", in Shreveport, January 29th.

Prescott has challenged Hope to a Walkathon. KTPA Radio Station Manager, Freddy Mar when Thursday's session ended, Richard Gerstein, state attorney, and Percy Foreman, defense attorney, were warned by Circuit Judge George Schultz to stop sniping at each other.

Negroes Organize for Opportunities

LITTLE ROCK (AP) — Negroes in Little Rock say they will organize an Opportunities Industrialization Center (OIC) to train Negroes for jobs.

The Rev. Henry Parker, vicar of St. Philip's Episcopal Church and acting chairman of the center, said Thursday that the program would be patterned after a Philadelphia program.

Parker said the Rev. Leon H. Sullivan of the Philadelphia OIC would come to Little Rock Jan. 31 for a mass rally.

Space Budget Won't Be Hurt by War

By GEOFFREY GOULD
WASHINGTON (AP) — In spite of the heavy budget pressure of the Viet Nam war, the chairman of the House Space Committee expects the administration's peace budget to be "in the same ballpark" as last year's.

Rep. George P. Miller, D-Calif., said in an interview Thursday night, "I expect it to be modestly below last year's request."

Last year Miller's committee authorized a \$5.18-billion budget for space exploration, slightly below what the administration requested, and \$5.17 billion was actually appropriated for the current fiscal year which ends June 30.

But with the mounting expenses of the war in Viet Nam there was some speculation that the space program might be in for a heavy cut in the new budget which President Johnson will send to Congress Monday.

Adding a bit of fuel to that fire was the fact that Johnson did not mention the space program — now the third largest expenditure (after defense and agriculture) of the government — once in his State of the Union message.

However, Miller said then that he didn't think the omission had any significance and "might even be a good omen."

Johnson did not mention space in last year's message either.

Miller said he has no direct information from the administration so far on details of the budget for the National Aeronautics and Space Administration. But he said he has been promised a look at a space budget summary this weekend.

Rice Acreage Might Be Increased

WASHINGTON (AP) — Undersecretary John A. Schnittker notified Rep. E. C. Gathings, D-Ark., Thursday that the Agriculture Department is still considering whether the national rice acreage allotment should be increased because of a tight world supply.

Gathings recently urged a 10 per cent increase in allotments. Schnittker told him that the department keeps the rice situation under continuous review and that it was impossible at this time to forecast the 1966 harvest to determine if supplies will be short.

But, Schnittker said, "It appears that a decrease in 1966 rice acreage allotments could be justified only on the basis that greater quantities must be made available for the Food for Peace programs."

Schnittker said a final decision on the matter would be made in the near future.

Columnist Appears Somewhat Hilarious at Thought of His 55th Birthday Next Month

By HAL BOYLE
NEW YORK (AP) — No, it couldn't happen to a younger fellow.

I am about to be 55 years old. Actually my birthday isn't until next month, but since anticipation is better than realization, I am celebrating it now.

To some, this milestone may not loom as a very important event. But I feel like climbing atop a sunny mountain and shouting through a megaphone: "Hello, world! Guess who's 55 years old. Me! Most of the billions of people who have inhabited earth never reached that age. But I have! Excite! Enjoy!"

To some people another birthday is like another millstone around their neck.

I don't feel that way. I think that total despair is plucked on one's 40th birthday, and every birthday after that is a great victory. Right now, if I had the money, I'd erect a great bronze statue of myself in Central Park — with one hand thumbing my nose at time, and the other out thrust full of bird seed and nuts for pigeons and squirrels.

There are pessimists who may question what is the possible pleasure of being 55. As a matter of fact, it is a rather comfortable age. You are too young to be a dirty old man, and too elderly to be called "a promising talent."

You are beyond the tyranny of desire but still available to the

Freed in Slaying of Stepfather

WALDRON, Ark. (AP) — Frederick T. Rush, who once faced a life prison sentence in the slaying of his stepfather, was acquitted Thursday at his third trial.

"It's all over now, son," Hugh Hardin, chief defense attorney, told the red-headed Rush after a jury returned a verdict of innocent on a second-degree murder charge.

Rush's wife, Charlotte, and his mother, Mrs. Virginia Rush, leaped to their feet and uttered cries of joy when the jury's decision was announced.

The jury deliberated only one hour after a three-day trial.

Two other persons conspired to kill Paul Rush, who was fatally shot in the darkened basement of the V&R Sales Co. building at Fort Smith May 13, 1962.

Rush was convicted at his first trial and sentenced to life in prison. The two other persons later were acquitted and Rush's conviction was reversed by the Arkansas Supreme Court.

Rush then was tried for second-degree murder, convicted and sentenced to 12 years in prison, but that verdict was also reversed by the Supreme Court.

Quick Approval to Billions for War Predicted

By LEWIS GULICK
WASHINGTON (AP) — Sen. Richard B. Russell predicted today that Congress will approve "practically all" of the \$12.76 billion in supplemental funds requested by President Johnson to help pay for the Viet Nam war.

The Georgia Democrat commented as Secretary of Defense Robert S. McNamara prepared to resume testimony on the request to combined sessions of the Senate's Armed Services Committee and Defense Appropriations subcommittee. Russell is chairman of both.

In testimony Thursday, McNamara disclosed plans for "massive application of firepower in Viet Nam and said, "We must be prepared to deploy even more forces" if the Reds expand their operations.

Secretary of State Dean Rusk plans a news conference today as the administration weighs which way to turn next in its drive for settlement of the war.

President Johnson was reported assessing the results of his month-old peace campaign to decide, among other things, whether to resume the bombing of targets in Communist North Viet Nam.

The President is expected to continue U.S. diplomatic efforts. But he spoke soberly Thursday after hearing from Rusk and Ambassador W. Averell Harriman, just returned from extensive foreign travels in behalf of Johnson's offer of unconditional discussions to end the war.

Johnson declared that Hanoi has blocked peace hopes so far.

Speaking at Independence, Mo., he said: "What is holding back the peace is the mistaken view on the part of the aggressors that we are going to give up our principles, that we may yield to pressure or abandon our allies, or finally get tired or get old."

"The door of peace must be kept wide open," he said. But "it takes more than one to sign an agreement" and "it seems clear to all that what is holding up peace in the world today is not the United States of America."

U.S. diplomats generally rated Johnson's peace drive as a success in persuading non-Communist governments of a U.S. desire for an end to the fighting in Southeast Asia. Some figured that the U.S. diplomatic drive begun after the Christmas eve bombing halt has started a process of rethinking by Communist leaders which will take a while longer.

Rain or Snow as New Cold Front Hits
By THE ASSOCIATED PRESS
Snow marched into southern Arkansas again today as a new cold front moved into the state.

The U.S. Weather Bureau issued hazardous driving warnings and a forecast for temperatures to continue in the 30s.

In mid-morning snow began falling at Texarkana, Nashville, Foreman, Hope, and other points in southwest Arkansas.

The bureau reported that the snow was light, but was increasing in intensity as the day wore on.

The forecast called for snow today and tonight as the cold front crosses the state.

Thursday's highs were generally in the 30s, with exception at Texarkana, Arkadelphia and Ozark where there were readings of 40.

Overnight lows ranged from 15 at Fayetteville to 33 at Memphis.

Tonight's lows are expected to be in the 20s to low 30s.

Saturday's highs are forecast in the middle 30s.

No snow was recorded in the state last night.

Cease-fire Jolted as Communists Hit Marine Patrol

By THOMAS A. REEDY
SAIGON, South Viet Nam (AP) — The Viet Cong jolted the lunar New Year cease-fire today by attacking a U.S. Marine patrol near Da Nang and engaging South Korean marines in a two-hour close-quarter battle near the central coast. Two Americans and 46 Communists were reported killed.

Two U.S. Marine sergeants were killed when the guerrillas caught a Leatherneck platoon on security patrol in a crossfire of automatic weapons and rifles as it struggled through the mud of a flooded rice paddy 7 miles south of Da Nang, 380 miles northeast of Saigon.

The Americans poured artillery fire into the enemy positions. One wounded Viet Cong was captured and six suspects were detained.

By nightfall of the second day of the holiday truce, the U.S. military command reported a total of 49 violations by the Communists, but most were regarded as minor brushes. In Saigon, some overanxious Koreans began shooting when they heard the sound of firecrackers as the Vietnamese greet the Year of the Horse on the lunar calendar.

Thirty-four of the Communist attacks were reported against U.S., Korean, Australian and New Zealand troops. This raised questions among military observers whether the Communists really intended to include South Viet Nam's allies in the four-day Viet Cong cease-fire.

When the underground Liberation Front radio broadcast the truce terms three weeks ago, it did not specifically include Allied soldiers but said it hoped they would respect the Vietnamese New Year celebration.

The other 15 attacks, all characterized as minor, were against government forces.

The Koreans reported 400 Viet Cong attacked a platoon of their marines shortly after midnight 10 miles southwest of Tuy Hoa, a coastal town 230 miles northeast of Saigon.

A Korean military spokesman said the marines beat off the attack and killed 46 of the Communists.

A guerrilla band also attacked a reconnaissance patrol of the U.S. 101st Airborne Brigade Thursday night 3 miles northwest of Tuy Hoa, a spokesman said. Armed helicopters came to the aid of the paratroopers, who claimed they killed three Viet Cong. No U.S. casualties were reported.

The clash involving the Koreans was by far the most severe since the start of the holiday truce Thursday.

The marines, who were in the area to protect the rice harvest, a first held their fire but opened up when the Viet Cong came within 30 yards, a Korean spokesman said.

Both sides lobbed hand grenades and exchanged small-arms fire. Reinforcements were called in by the Koreans. They said their casualties were moderate.

American patrols came under a variety of small-arms fire, grenade attacks and other harassment in the first day of the truce, U.S. spokesmen reported. None apparently was serious.

A South Vietnamese spokesman reported that a Viet Cong propaganda unit fired on a government ranger company after it ignored loudspeaker appeals to defect during the Tet holiday. The rangers suffered minor casualties, the spokesman said.

Both sides have mounted propaganda campaigns during the celebration, a sentimental occasion when many Vietnamese return to their homes.

Truck, Train Hit and Driver Dies

DE VALIS BLUFF, Ark. (AP) — James D. Conway, 43, of Little Rock, was killed Thursday night when his car struck a stopped Rock Island freight train at a crossing on U. S. 70 about two miles west of De Valis Bluff.

State Trooper Bill Davidson said the train was engineered by Charles Henson, also of Little Rock.
